

**MILITARY LEAGUE**

What Is the Military League?

The Military League is an official Wizards of the Coast® league for **Magic: The Gathering®**. The Military League offers an unprecedented opportunity for military personnel, dependents, and DoD employees to participate in worldwide, semicompetitive social play administered by Wizards of the Coast, Inc.

The Military League lets you play **Magic** any day of the week, in virtually any location: MWR Recreation Center, barracks day room, community center, to name a few. A Military League membership, which entitles the player to one full year of ranked league play and assorted product and merchandise, is required to participate. All you need is your deck, a few other Military League members, a place to play, and a determined volunteer organizer, since league formats are standardized across the military. You can even play with members of another service branch!

The standardized environment provided by the Military League creates a level playing field for all participants, young or old, officer or enlisted, new player or embattled veteran. The length of the league seasons allow you to participate whether you are in garrison, deployed, or on a training exercise!

Wizards of the Coast will track your performance in the Military League and allow you to compare your performance with other players in your branch or in the entire service by viewing player ratings.

Seasons of league play feature rotations in play format, including Standard, Continuous Draft, and other formats.

There are four league seasons per year, coinciding with each fiscal quarter, and each season lasts approximately two months. A variety of end-of-season events are also offered.

The Top 10 players in each branch for each season will receive prizes exclusive to the Military League. In addition, each player who registers for membership in the Military League will receive membership benefits, also exclusive to the league. These benefits include **Magic** products, subscription to The Duelist Sideboard™, and merchandise designed specifically for the Military League.

The Military League promotes friendly competition and fun. It is a forum to learn strategic **Magic** play. The more people who learn to play **Magic**, the greater your competitor base. You choose how important the rating is to you--either within your own service branch, or within the full military spectrum. The league seasons allow players to reset their ratings each quarter.

Whether you are in Bosnia or Cuba, Japan or North Carolina, the middle of the Pacific Ocean or the desert seas, your rank counts!
