Bearscape of the Dead

Dawn of the Dead was originally the name of card in *Odyssey*: a black enchantment that read, "♣♣, remove two cards in your graveyard from the game: put a 2/2 black zombie creature token into play." But at the last minute, R&D decided that the card needed to be green, so they switched it into what we all know now as **Bearscape**.

However, everyone liked the name "Dawn of the Dead," and art had already been commissioned, so they purposefully made a *Torment* card that could use them.
