Magic Arcana  
 Monday, July 22, 2002

The **Magic** card with the longest name is obviously **The Ultimate Nightmare** of Wizards of the Coast Customer Service, a wacky direct damage spell from *Unglued*, clocking in at a whopping 54 letters.

But what cards claim the title among tournament-legal sets? There are two cards: **Circle of Protection: Artifacts**, originally from *Antiquities*, and *Legends'* **The Tabernacle at Pendrell Vale**, both with 27-letter names. Mouthfuls indeed.
