All about pterons

Magic Arcana
 Tuesday, June 22, 2004

On the plane of Mirrodin, a pteron is a pterodactyl-like flying creature that soars the skies above the Razor Fields. You've probably heard their name on the card [Pteron Ghost](#), but there are better illustrations of (living) pterons on other cards.

That's because leonin skyhunters use pterons as mounts. Any cat creature with flying in *Mirrodin* block is depicted on a pteron mount. Check out [Skyhunter Cub](#), [Skyhunter Patrol](#), [Leonin Skyhunter](#), [Skyhunter Prowler](#) and [Skyhunter Skirmisher](#).

Skyhunter Cub detail, art by Pete Venters

There's at least one more place that a pteron is depicted in *Mirrodin* block art. Check out what's being fried in the art of *Fifth Dawn's* [Magma Jet](#). Tastes like chicken?
