Artful affinity

Magic Arcana
Thursday, July 1, 2004

Blinkmoth *Infusion* untaps all your artifacts at great expense -- unless you have a ton of them. The affinity for artifacts ability is actually depicted in Alan Pollack's art of *Blinkmoth Infusion*, in the form of small artifacts shown on pedestals behind the magical light shining down on the main artifact in the center.

And what is that main artifact in the center? *Gilded Lotus* -- a very sensible artifact to untap.
