Ascendants in Ascendance

Magic Arcana
 Thursday, June 2, 2005

The *Saviors of Kamigawa* flippers, the ascendants, begin their lives as mortal creatures like the other Kamigawa block flippers. But these enlightened beings don't just gain in skill like some self-important graverobber, and they don't betray their mortal allies like some spirit-loving squire.

These guys *ascend*. Once they flip, they aren't even creatures anymore -- they become powerful, legendary enchantments that represent the focused essence of their mortal forms, reminiscent of *Judgment's incarnations*.

The art of the *Saviors* ascendants portrays this transformation abstractly. Check out how, in each case, the artists show mystical tattoos and markings on the ascendants' mortal forms, and incorporate those same designs in their ascendant form.
