Magic Arcana
 Wednesday, April 12, 2006

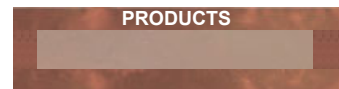

You've already seen some [secrets of the Azorius](#) in the *Dissension* minisite. Now it's time to breach the biowombs of Novijen — and if you don't know what we're talking about, you will soon.

The Blue-Green guild, the [Simic Combine](#), hits the *Dissension* minisite today. There you'll find:

- Simic guild lore and exclusive concept art from the style guide
- Simic short fiction by Rei Nakazawa
- Special Simic art preview with bonus wallpaper

Tune in again next Wednesday for the final update — the Cult of Rakdos.
