# "Swarmyardables" in Standard

Magic Arcana  
 Thursday, November 9, 2006

The *Time Spiral* card **Swarmyard** is a throwback to the venerable land **Elephant Graveyard**. **Swarmyard** is a bit powered up - it's able to regenerate a much wider variety of creatures, and most of them are rather small creepy-crawlies that might *need* to regenerate more often than your typical Elephant.

What cards currently in Standard can be regenerated by **Swarmyard**?

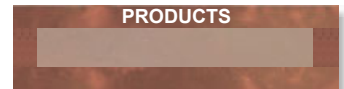

Card	Creature Type
<a href="#">Aquastrand Spider</a>	Creature - Spider Mutant
<a href="#">Barbed Shocker</a>	Creature - Insect
<a href="#">Brass Gnat</a>	Artifact Creature - Insect
<a href="#">Frostweb Spider</a>	Snow Creature - Spider
<a href="#">Giant Cockroach</a>	Creature - Insect
<a href="#">Giant Spider</a>	Creature - Spider

<a href="#">Unyaro Bees</a>	Creature - Insect

P.S. If you're building a deck around **Swarmyard**, you should consider **Ratcatcher** as well -- he's not himself targetable by the land, but quite the friend to Ratkind! (Speaking of targetable, **Giant Solifuge** is an Insect, but can't be targetted by the land's ability.)

P.P.S. Note that the vermin in the art are chewing on a bloated, dead... you guessed it... Elephant.
