

# Death Rattle Switch

Magic Arcana  
Wednesday, May 2, 2007

The art description of **Death Rattle** originally asked artist Vance Kovacs to depict skeletal snakes about to devour an elf.

*Color: Black Spell*

*Location: unimportant*

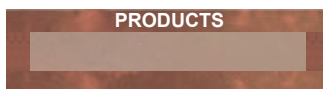

*Action: An elf warrior is suddenly surrounded by three skeletal giant snakes that have sprung up from the black muck around him/her. The snake-skeletons are eerily all in the same posture, evenly spaced around him.*

*Focus: the elf's imminent death*

*Mood: It'll be over soon.*

*Notes: Not set in world of the Time Spiral style guide. Design an alternate Magic reality.*

However, the development team wanted to improve the power of giant green creatures, and changed **Death Rattle** to read "nongreen creature" instead. Showing an elf in the art would have been right out! Luckily there was time to have Vance Kovacs show a human warrior instead.
